

The 5185 is a robust fixed wrist bar saw for wheel or track carriers. With powerful cutting and grapple arm performance, the 5185 is ideal for felling, limbing, topping and shoveling large, high value timber.

# **BENEFITS AND ADVANTAGES:**

# Heavy-duty reinforced chassis and arms

- Built for heavy duty applications and matched to the productivity and duty cycle of Tigercat carriers
- Large pins and durable cushioned cylinders

### Dual cylinder arm design for maximum control

- Superior grip and control of oversize trees and bunches
- Grapple-type arms for excellent performance in selective felling and shovel logging applications

# **Durable and simple Tigercat saw unit**

- Spring-mounted saw unit to resist bent bars
- Easy to service with quick bar and chain changes
- Optional 60 cc saw motor for faster cutting performance

# High torque 340° wrist for excellent control of oversize timber and reduced machine travel

### **Custom in-cab control for Tigercat carriers**

- Adjustable wrist, grapple and sawing functions
- Settings can be optimized to suit operator and application

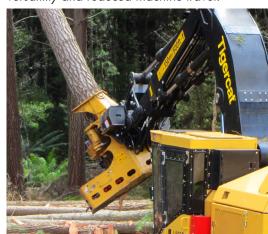

of Tigercat wheel and track carriers.

Well matched to the high performance Excellent cutting performance and control of oversize, high value timber.

High torque 340° wrist for increased versatility and reduced machine travel.

# **SPECIFICATIONS**

#### DIMENSIONS

HEIGHT track carriers 1 830 mm (72 in) HEIGHT wheel carriers 2 110 mm (83 in) 1 860 mm (73 in) WIDTH arms open DEPTH arms open 2 010 mm (79 in) 1 950 kg (4,300 lb) BASE WEIGHT With 340° wrist for track carriers 2 790 kg (6,150 lb)

#### WRIST, TRACK CARRIERS
