

Genuine Volvo Penta Parts Warranty

Double the Warranty When Fitted by Wajax

V O L V O P E N T A

Genuine Parts by Volvo Penta

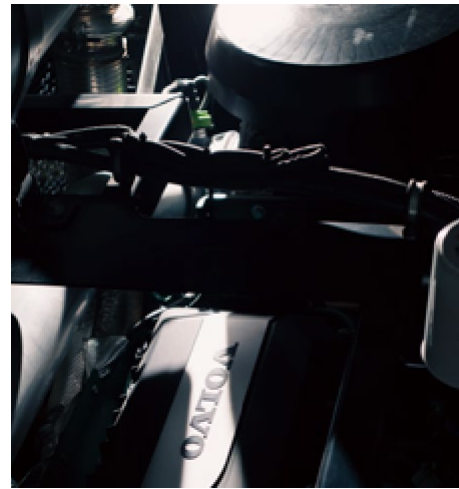

Not only can Volvo Penta supply you with parts that are original to your engine—we also back them with extensive warranty coverage for your complete peace of mind.

Genuine Volvo Penta Parts and Accessories are designed and engineered to the highest standards and built to work in perfect harmony with Volvo Penta engines. When you fit your engine with Genuine Volvo Penta Parts, you can count on optimum performance, reliability and long service life.

But in the event a part does fail due to a warrantable defect, Volvo Penta is there to back you up. All Genuine Volvo Penta Parts and Accessories (excluding wear parts) that are supplied by Wajax come with a 12-month warranty as standard.

If those parts are also fitted by Wajax, the warranty doubles to 24 months and covers labour. So not only do you have the assurance that your high-quality components have been fitted correctly and with Volvo Penta expertise, you also get the backing of a comprehensive Volvo Penta warranty.

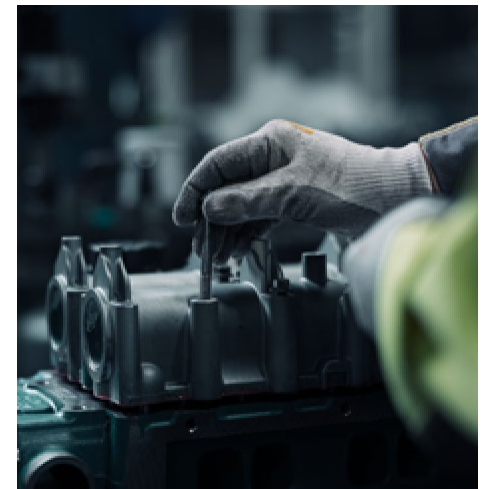

With Volvo Penta, every link in the chain is strong. Reliable, top quality Genuine Volvo Penta Parts and Accessories, along with a professional global distributor network and extensive warranty coverage, afford you complete peace of mind—no matter your application.

12 MONTHS

Standard Warranty

Volvo Penta Genuine Parts and Accessories that are supplied but not fitted by Wajax are covered by our standard 12-month warranty.

24 MONTHS

Fitted-Parts Warranty

Volvo Penta Genuine Parts and Accessories, that have been supplied and installed by a Wajax workshop, are covered for 24 months—including the labour involved in fitting the part.

Find a Wajax Location

Volvo Penta has an extensive network of 3,500 distributors in 130 countries supporting marine and industrial customers around the world. Scan the QR code, or visit <https://www.wajax.com/locations/> to find your nearest Wajax distributor.

- Twenty-four (24) months

Hour Limitations (whichever comes first):

- 600 hours – Marine Leisure
- 1,000 hours – Marine Commercial
- 3,000 hours – Industrial
(excluding standby power and emergency fire pumps, which are limited to 1,000 hours)

The twenty-four (24) month Parts warranty will apply and follow the same terms and conditions as the AB Volvo Penta International Limited Warranty. The warranty coverage will begin from the date of sale, as specified by the invoice/transaction document. The customer is required to produce an invoice/receipt as proof of purchase to qualify for warranty in these cases.

All products, including engines, transmissions, components, parts and accessories which were replaced or repaired during the warranty or additional coverage period at no cost to the owner/end customer, will receive the remainder of the original warranty period for such products. For example, if a product is registered for warranty in Product Centre and is entitled to a 24-month warranty period, and a warranty repair is performed after 22 months, any parts replaced or repaired at that time will receive the remaining 2-month warranty coverage.
