Customer Tariff Communication Statement

Due to ongoing changes in laws, regulations, international trade policies and tariff requirements, quoted pricing may be subject to adjustment at the time of shipment or invoicing based on the actual tariff rates and other governmental or regulatory charges in effect when the product crosses the border.

These adjustments are not price increases implemented by Wajax, its suppliers or its manufacturing partners.

However, any applicable tariffs and charges will be passed through at the actual rate incurred, and the purchase price may be adjusted accordingly. Wajax will notify the customer of any purchase price adjustment and will provide reasonably available supporting documentation evidencing the adjustment upon request. Wajax remains committed to maintaining transparency throughout this process and will continue to work closely with its customers to communicate any impacts as early as possible.

We appreciate your understanding as we navigate these changing and uncertain market conditions together. We remain focused on delivering the products, services, and support you expect from Wajax.

Vice President of Supply Chain
